Accounting and Reporting Manual

New York State Comptroller
THOMAS P. DiNAPOLI

AUGUST 2021

Updated August 2021 to reflect:

Accounting Bulletin (revised November 2020) – [Accounting and Financial Reporting for Fiduciary Activities as Required by GASB Statement 84](#) – Deleted the agency fund, updated the private-purpose trust fund, and added the custodial fund in chapters 2 and 4. Updated journal entry 31 to demonstrate how to account for payroll withholdings in the general fund and deleted journal entry 31b as agency funds are no longer active. Deleted all agency fund codes and added custodial fund codes and miscellaneous general fund codes in the account code appendix.

Accounting Bulletin (July 2020) – [Coronavirus Aid, Relief and Economic Security \(CARES\) Act Information](#) – Added account code 4286 – Federal Aid, CARES Act Education Stabilization Fund in the account code appendix.

Part I - Accounting and Reporting

Chapter 1 - Introduction

The Office of the State Comptroller (OSC) has compiled this manual as a comprehensive accounting guide for school district officials and others interested in accounting by school districts in New York State. It provides an overview of generally accepted governmental accounting and financial reporting principles, and OSC's interpretations of such principles, where pronouncements are silent or do not address problems common among school districts within New York State.

The basic responsibility for oversight of school districts by the State Comptroller is contained in the State Constitution and Article 3 of the General Municipal Law (GML). Among other things, the State Comptroller's responsibilities include: performing audits (GML, Sections 33, 34, 35), prescribing information to be included in annual financial reports (GML, Sections 30, 31, 32), prescribing a uniform system of accounts (GML, Section 36), and preparing an annual report to the State Legislature (GML, Section 37).

OSC has made a commitment to prescribe an accounting system which generally conforms to generally accepted accounting principles (GAAP). OSC prescribes a Uniform Systems of Accounts pursuant to GML, Section 36. The System of Accounts provides for a standard chart of accounts and fund structure that is the basis for the annual financial reports (ST-3) required to be filed with the State Education Department (SED) and the State Comptroller. For additional information, please see the SED website at www.p12.nysed.gov/mgtserv/.

Generally Accepted Accounting Principles for Governmental Units

GAAP are uniform minimum standards of and guidelines to financial accounting and reporting. They are the framework within which financial transactions are recorded and reported resulting in financial statements that provide comparability between governmental entities, consistency between accounting periods and reliability for internal and external users of financial statements.

Since GAAP for local governments is not static but evolving, OSC is involved in such activities as monitoring and responding to proposed pronouncements; amending the Accounting Systems when appropriate in light of new or revised standards; and assisting local officials in understanding and implementing GAAP through conferences, workshops and seminars. This updated manual is an example of this activity.

A brief overview of the history of standard setting for private enterprises and for government is helpful in understanding the sources of GAAP for governments. The first formal efforts to establish GAAP for private enterprises began in 1930 in response to the financial difficulties experienced during the Great Depression. Over the years, the American Institute of Certified Public Accountants (AICPA) established GAAP. In 1973, the Financial Accounting Standards Board (FASB) was formed. Since 1973, FASB has prescribed GAAP for commercial and non-profit organizations. FASB operates under the auspices of the Financial Accounting Foundation (FAF), an independent non-profit foundation.

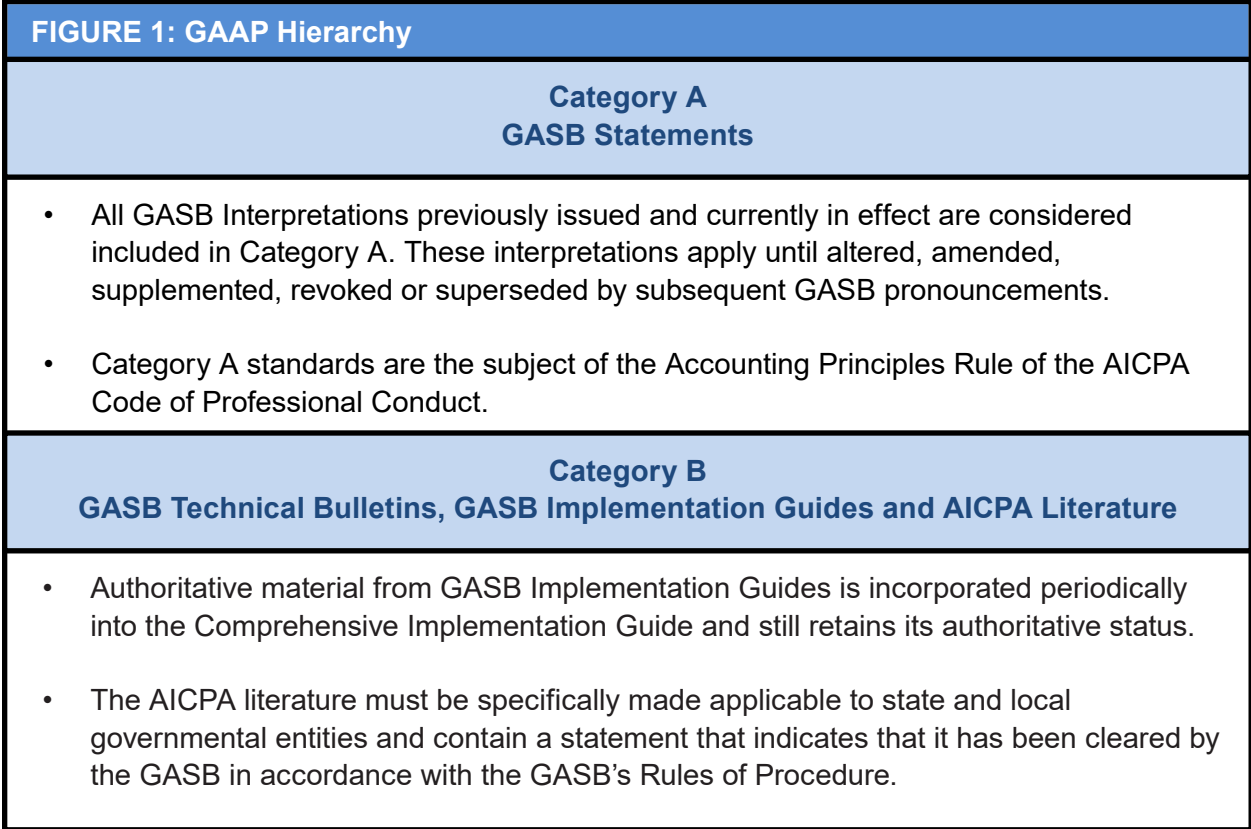

GAAP for state and local governments were originally sponsored by the Municipal Finance Officers Association (MFOA), now known as the Government Finance Officers Association (GFOA), through a group known as the National Committee on Municipal Accounting (NCMA). After some years, this committee was replaced by another MFOA-sponsored group, the National Committee on Governmental Accounting, which itself was eventually expanded and renamed the National Council on Governmental Accounting (NCGA). The MFOA's guidance was incorporated into various editions of a publication that came to be known commonly as the "blue book," first published in 1934. In the late 1970's, the NCGA began to issue statements and interpretations. Eventually, the NCGA decided that these pronouncements, rather than the blue book, should be authoritative. Consequently, later editions of the blue book are not GAAP, but merely illustrate what is common practice. In 1984, the responsibility of setting GAAP for state and local governments was transferred from the NCGA to the Governmental Accounting Standards Board (GASB). Like the FASB, the GASB functions under the auspices of the FAF.

The following have been the standard setting bodies for GAAP for state and local governments:

National Committee on Municipal Accounting	1934-1948
National Committee on Governmental Accounting	1948-1974
National Council on Governmental Accounting	1974-1984
Governmental Accounting Standards Board	1984-Present

The GASB is the highest, but not the sole, source of GAAP for state and local governments. When accounting issues are not covered by GASB guidance, guidance from the American Institute of CPAs (AICPA), Government Finance Officers Association (GFOA), the Financial Accounting Standards Board (FASB) and other sources is used following a prescribed order.

The following is the "hierarchy" of GAAP, as identified in GASB Statement No. 76, The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments:

Chapter 2 - Basic Governmental Accounting Principles

Governmental Accounting Principles

The following are basic principles of accounting and reporting applicable to fund based accounting for school districts as integrated in the GASB Codification of Governmental Accounting and Financial Reporting Standards.

1. Accounting and Reporting Capabilities	
Purpose	Explains the requirements for accounting records and reporting
Principle	A governmental accounting system must make it possible both: (a) To present fairly and with full disclosure the funds and activities of the governmental unit in conformity with generally accepted accounting principles; and (b) To determine and demonstrate compliance with finance-related legal and contractual provisions.
Guidance	In New York State there are few, if any, provisions of general statutory law that conflict with GAAP. However, if conflict does exist, financial statements must be prepared in conformance with GAAP. This does not mean that two accounting systems should be maintained. Books of account should be maintained on a legal-compliance basis, but should include sufficient additional reports to permit GAAP-based reporting.

2. Fund Accounting Systems	
Purpose	Explains funds and their structure
Principle	Governmental accounting systems should be organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations.

3. Fund Types	
Purpose	Explains the types of funds
Principle	For school districts, there are two categories of funds used in governmental accounting: governmental funds and fiduciary funds.
Guidance	<p>Governmental funds account for most governmental functions.</p> <p>The general fund accounts for all financial resources except those accounted for in another fund.</p> <p>Special revenue funds account for the proceeds of specific revenue sources that are restricted or committed to expenditure for a specific purpose. The school food service programs fund is an example of a special revenue fund.</p> <p>Capital projects funds account for financial resources to be used for the acquisition or construction of capital facilities and other capital assets.</p> <p>Debt service funds account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.</p> <p>Permanent funds account for resources that are restricted to the extent that only earnings, not principal, may be used for purposes that benefit the government or its citizenry.</p> <p>Fiduciary funds account for assets held by a governmental unit in a trustee or custodial capacity.</p> <p>Private-purpose trust funds account for trust arrangements where the government itself is not a beneficiary and the assets are dedicated to providing benefits to recipients in accordance with the benefit terms and are legally protected from the creditors of the government.</p> <p>Custodial funds account for any remaining fiduciary activities that are not required to be reported in a private-purpose trust fund.</p>
Supplemental schedules will be used in the ST-3 to account for non-current governmental assets and non-current governmental liabilities.	

4. Number of Funds	
Purpose	Explains the criteria upon which the number of funds is determined
Principle	School districts should establish and maintain those funds required by law and sound financial administration. Only the minimum number of funds consistent with legal and operating requirements should be established because unnecessary funds result in inflexibility, undue complexity and inefficient financial administration.

5. Reporting Capital Assets	
Purpose	Clarifies requirements
Principle	At the fund financial statement level, capital assets are not reported in governmental funds. Governmental fund capital assets will be accounted for and reported in the schedule of Non-Current Governmental Assets.

6. Valuation of Capital Assets	
Purpose	Explains the requirements for recording capital assets
Principle	Capital assets should be accounted for at historical (actual) cost or, if the cost is not practicably determinable, at estimated cost. The cost of the capital asset should include ancillary charges necessary to place the asset into use. Donated capital assets and capital assets acquired in a service concession arrangement should be recorded at acquisition value. Acquisition value is the price that would be paid to acquire an asset with equivalent service potential at the acquisition date, or the amount at which a liability could be liquidated with the counter party at the acquisition.

7. Depreciation of Capital Assets (Fund Financial Statements)	
Purpose	Explains the purpose and basis for depreciation
Principle	Depreciation of capital assets should not be reported in the accounts of governmental funds. Accumulated depreciation may be recorded in the schedule of Non-Current Governmental Assets.

8. Reporting Long-Term Liabilities	
Purpose	Clarifies requirements
Principle	At the fund financial statement level, long-term liabilities are not reported in governmental funds. Long-term liabilities will be accounted for and reported in the schedule of Non-Current Governmental Liabilities.

9. Measurement Focus and Basis of Accounting	
Purpose	Explains the accounting basis and its applicability to the various funds
Principle	For school districts, the modified accrual basis of accounting should be used in measuring financial position and operating results.
Guidance	<p>Governmental fund revenues and expenditures should be recognized on the modified accrual basis. Revenues should be recognized in the accounting period in which they become available and measurable. Expenditures should be recognized in the accounting period in which the fund liability is incurred, if measurable.</p> <p>Fiduciary fund revenues and expenses should be recognized on the accrual basis of accounting.</p> <p>Transfers should be recognized in the accounting period in which the interfund receivable and payable arise.</p> <p><u>BOCES Settlements</u> - The amount of annual settlement (surplus or deficit) with BOCES shall be accrued on the books. A surplus will be recorded as a receivable (A440 Due from Other Governments) and credited to expenditures. A deficit will be recorded as an accrued liability (A601) and debited to expenditures.</p> <p><u>Tuition</u> - Amount due to a school district at the end of the fiscal year will be accrued if available to meet current commitments. If not available it will be recorded as a receivable (A440) and credited to A691 Deferred Inflow of Resources. Tuition due to other school districts will be charged to A522 Expenditures and credited to A631 Due to Other Governments.</p>

10. Budgeting, Budgetary Control and Budgetary Reporting	
Purpose	Clarifies requirements for budgets and their relationship to the accounting records
Principle	An annual budget(s) should be adopted for every governmental unit. The accounting system should provide the basis for appropriate budgetary control.
Guidance	In New York State, general statutory law requires political subdivisions to establish appropriations as a means of providing control over amounts that may be expended. In addition, revenues other than real property taxes must be estimated as a means of determining the amount of real property taxes to be levied. OSC requires budgets for funds classified as general, special revenue, capital projects and debt service. At a minimum, revenues must be controlled by source and expenditures by functional unit and basic object of expenditure. The books of accounts must establish budgetary control at the level of detail contained in the original budget and as modified by the governing board during the fiscal year. A school district should control expenditures for each budget line that it has established.

11. Transfers, Revenues and Expenditures Account Classification	
Purpose	Identifies the accounting classifications of transactions
Principle	Interfund transfers and proceeds of general long-term debt issues should be classified separately from fund revenues and expenditures.
Guidance	Governmental fund revenue should be classified by fund and source. Expenditures should be classified by fund, function (or program), organization unit, activity, character and principal classes of objects.

12. Common Terminology and Classification	
Purpose	Provides the ability to compare planned and actual activities for all funds
Principle	A common terminology and classification should be used consistently throughout the budget, the accounts, and the financial reports of each fund.

13. Interim and Annual Financial Reports	
Purpose	Clarifies financial reporting requirements
Principle	Appropriate interim financial statements and other pertinent information should be prepared to facilitate management control of financial operations, board of education oversight, and, where necessary or desired, for external reporting purposes.
Guidance	School districts are required to submit a financial report, the ST-3, to the OSC and the State Education Department.

Chapter 3 – Measurement Focus and Basis of Accounting

Measurement Focus

Although school districts maintain their accounting records on a modified accrual basis of accounting, which measures the flow of current financial resources, they must convert this financial information to the accrual basis of accounting, which measures the flow of economic resources, when preparing the district-wide financial statements subject to an independent audit (see Chapter 7).

ST-3 and Fund Financial Statements	District-Wide Financial Statements
Flow of current financial resources	Flow of economic resources
Are there more or less resources that can be spent in the near future as a result of events and transactions of the period?	Will the district be better or worse off economically as a result of events and transactions of the period?
Increase in spendable resources - Revenues or other financing sources	Events and transactions that improve economic position - Revenues or gains
Decrease in spendable resources - Expenditures and other financing uses	Events and transactions that diminish economic position - Expenses or losses

Situations which illustrate the difference between the two measurement focuses are as follows:

1. Receipt of long-term debt proceeds	
ST-3 and Fund Financial Statements	District-Wide Financial Statements
Increase in spendable resources DR Cash CR Other Financing Sources	Economic position not improved DR Cash CR Bonds Payable

2. Repayment of principal on long-term debt	
ST-3 and Fund Financial Statements	District-Wide Financial Statements
Decrease in spendable resources DR Expenditure CR Cash	Economic position not diminished DR Bonds Payable CR Cash

3. Capital acquisition	
ST-3 and Fund Financial Statements	District-Wide Financial Statements
Decrease in spendable resources DR Expenditure CR Cash	Economic position not diminished DR Equipment CR Cash

4. Exhaustion of capital assets	
ST-3 and Fund Financial Statements	District-Wide Financial Statements
No effect on spendable resources Depreciation is not recognized	Economic position diminished DR Depreciation Expense CR Accumulated Depreciation

5. Deferrals and Amortization	
ST-3 and Fund Financial Statements	District-Wide Financial Statements
Decrease in spendable resources DR Expenditure CR Cash	Economic position diminished only by the expense for the benefited period DR Deferred Outflow of Resources CR Cash DR Amortization Expense CR Deferred Outflow of Resources (Expense allocated over entire period of benefit.)

Basis of Accounting

A school district's accounting basis determines when transactions and economic events are reflected in its financial statements.

Modified Accrual Basis:

Under the modified accrual basis of accounting, revenues and other financial resources are recognized when they become susceptible to accrual, that is when they become both measurable and available to finance expenditures of the current period. Each school district should adopt an availability period for all revenues, except real property taxes, which must have a 60 day availability period. Expenditures are recognized when the fund liability is incurred, with certain exceptions, such as principal and interest on long-term debt.

Accrual Basis:

Under the accrual basis of accounting, most transactions are recorded when they occur, regardless of when cash is received or disbursed.

ST-3 and Fund Financial Statements	District-Wide Financial Statements
Cash flow must occur within a short-enough period to affect current spendable resources. Revenues must be both measurable and available, and expenditures are generally recognized when they are expected to draw upon current spendable resources.	Revenue/gain or expense/loss recognized when they occur regardless of cash flow.

The following are examples to illustrate the effects of these differences:

1. Billing for services rendered	
ST-3 and Fund Financial Statements	District-Wide Financial Statements
DR Receivable CR Revenue CR Deferred Inflow of Resources Only the amount available to finance liabilities of the current period would be recognized as revenues.	DR Receivable CR Revenue Entire revenue recognized in the period in which service was provided. The timing of collections is not relevant.

2. Employees earn vacation leave that will be taken or paid out in the future	
ST-3 and Fund Financial Statements	District-Wide Financial Statements
<p>No Expenditure</p> <p>Leave would be recognized as an expenditure to the extent it is expected to be liquidated with current spendable resources.</p>	<p>DR Expense CR Accrued Liability</p> <p>The liability has been incurred.</p>

EQUITY	
The difference between assets and liabilities:	
ST-3 and Fund Financial Statements	District-Wide Financial Statements
<p>Fund Balance</p> <p> Nonspendable</p> <p> Restricted</p> <p> Committed</p> <p> Assigned</p> <p> Unassigned</p>	<p>Net Assets</p> <p> Invested in capital assets, net of related debt</p> <p> Restricted</p> <p> Unrestricted</p>

Chapter 4 – Funds and Supplemental Schedules

The following funds and supplemental schedules are available for use by school districts. School districts should establish and maintain only the minimum number of funds consistent with legal and operating requirements (See Chapter 2, Principle 4).

Governmental Funds

General (A) – the principal operating fund and includes all operations not accounted for and reported in another fund.

Budgetary Accounts

Both the authorized financial plan, or budget, and the actual results realized during the fiscal year will be recorded. Accounts have been provided to record the budget and any modifications. The budgetary accounts are a self-balancing group of accounts. Control accounts will record the total of estimated revenues and the total amount authorized for expenditure (appropriations). Details of estimated revenues and appropriations will be maintained in subsidiary ledger accounts. An account has been provided which will show the amount of the fund balance appropriated to finance the current year's budget. Actual revenues and expenditures will not affect these accounts.

Proprietary Accounts

Accounts are provided to reflect the assets and liabilities of a district and display the results of operations in terms of revenue, expenditure and fund balance. Expenditures shall be maintained in a subsidiary ledger by functional unit and object and will reflect appropriations as modified, expenditures, encumbrances and unencumbered balances. Actual revenues shall be maintained in a subsidiary ledger which will also show the estimated revenues, and the balance to be realized.

School Food Service Programs Fund (C) – a special revenue fund used to account for and report transactions of the school district breakfast, lunch and milk programs. Real property taxes levied to subsidize the programs can be recorded in the general fund and transferred to the school food service programs fund when needed or the taxes can be deposited directly into the school food service programs fund (see example journal entry # 94 in Chapter 8). All direct expenses of the school breakfast, lunch and milk programs will be paid from this fund. Budgetary and encumbrance accounting are required. Surplus foods received from the federal government shall be entered in the records at market value. At the end of the fiscal year, a physical inventory of food must be taken and the value recorded in the accounting records.

Miscellaneous Special Revenue Fund (CM) – a special revenue fund used to account for and report those revenues that are restricted or committed to expenditures for specified purposes.

Special Aid Fund (F) – a special revenue fund used to account for and report special projects or programs supported in whole or in part by federal funds or State-funded grants. A grant is defined as a contribution of cash or other assets from the State to be used or expended for a specific purpose or activity as opposed to an entitlement which is an amount to which a school district is

entitled pursuant to an allocation formula contained in specific statutes and regulations. Entitlements will continue to be accounted for in the general fund. State grants which are to be accounted for in the special aid fund are those which may possess the following characteristics:

- The program is funded in whole or in part through a distribution of State funds where allocations are made on some basis other than a formula basis.
- Payments of State assistance are usually made on a current basis (i.e., revenue is usually received in the same fiscal year in which expenditures are made). There are exceptions, such as summer handicapped aid.
- An application or budget must be filed with and approved by the State and/or federal government as a requirement prior to receipt of the funds or a separate expenditure report is required at the completion of the program.
- The funds are required to be expended for a specified purpose.

Federal or State aid for special projects will be credited directly to this fund. The local share, if any, shall be provided for in the general fund and transferred to the special aid fund. Revenues from other sources shall also be credited directly to this fund. All revenues should be identified with a particular project.

Public Library Fund (L) – a special revenue fund used to account for and report transactions of a library established and supported, in whole or in part, by real property taxes. The use of this fund assures compliance with New York State Education Law §259, which provides that all moneys received from taxes or other public sources for library purposes shall be kept in a separate fund. In addition to the tax and other public moneys, the library may receive gift and endowment funds. These funds will be accounted for in a permanent fund or private-purpose trust fund, as appropriate.

Library moneys appropriated for capital projects shall be transferred to the capital projects fund and expended upon authorization of the library trustees. Capital projects financed from the proceeds of obligations will be under the control of the governing board of the school district.

Grant or contract payments by the school district to a free association library or to a public library sponsored by another local government will not be recorded in this fund but will be made directly from the general fund.

For the purposes of financial reporting, a decision will have to be made as to whether the library meets the criteria for inclusion in the reporting entity.

Permanent Fund (PN) – used to account for and report resources that are legally restricted to the extent that earnings, not principal, may be used for purposes that benefit the school district.

Capital Projects Fund (H) – used to account for and report financial resources that are restricted, committed or assigned to expenditure for the acquisition or construction of capital facilities and other capital assets, such as equipment. A capital projects fund must be used if the acquisition or construction is financed in whole or in part from the proceeds of obligations, but may include funding from federal, State and local sources.

Because capital projects are budgeted on an individual project basis and the legal and contractual requirements will vary from one project or class of projects to another, an individual capital projects fund should be established for each authorized project, as defined by SED project number. There will be instances in which several related projects combined under a single budgetary and/or debt authorization may be accounted for in a single fund. A common example of this situation would be a series of building improvements carried out over an extended period of time by a school district with funds provided by a single bond authorization and issue. However, a combined balance sheet for all capital projects will be presented in the financial statements.

A board of education's authorization of specific capital projects is required prior to their commencement as a means of ensuring that all legal aspects of the project are in order and that financial commitments will be met. Certain other requirements must be met before capital projects can be undertaken. One of these is authorization to issue bonds when a part or all of the fund resources are to be provided by borrowings. Referendum requirements, if any, must also be complied with.

There will be many instances in which the general fund or a special revenue fund will budget and expend its own resources for a capital purpose. As long as the resources in such cases are derived exclusively from the direct revenues of the particular fund and do not involve borrowing, such outlays may properly be accounted for in the fund involved without a separate capital projects fund.

The liability for long-term obligations issued to finance a project will not be recorded in the capital projects funds, but will be accounted for in the Non-Current Governmental Liabilities account. This includes the proceeds of bonds and capital notes. Proceeds of State or federal aid received after completion of the project, which is restricted to payment of debt service, will be recorded in the debt service fund.

Capital assets acquired through a capital projects fund will be accounted for in the Non-Current Governmental Assets account.

The means of financing and the estimated cost of a project will be recorded in memorandum accounts similar to the entry for recording the annual budget in the general fund. These estimates will not be closed until the completion of the project and also will not appear in the balance sheet.

The balance of obligations, accrued interest on obligations, earnings on investments and bond premiums (if the premiums are not used for the capital project) will be transferred to an operating or debt service fund for debt service payments.

Debt Service Fund (V) – used to account for and report the accumulation of resources that are restricted, committed or assigned to expenditure for the payment of principal and interest on long-term debt. Debt service funds are required when segregation of resources is legally mandated, including:

- Proceeds from the sale of property on which debt is outstanding.
- Interest earned on the proceeds of long-term debt which was not budgeted as a source of financing for the project.
- Unexpended proceeds of long-term debt.

Taxes levied for debt service may be recorded directly in this fund or transferred from other funds. Unexpended balances of proceeds of borrowings for capital projects, interest and earnings from investing proceeds of obligations, and premium and accrued interest will be recorded here and held until appropriated for debt payments.

A single debt service fund will be maintained to account for and report the payment of long-term debt, however, subsidiary records should be maintained for individual debt issuances.

Fiduciary Funds

Private-Purpose Trust Fund (TE) – used to account for trust arrangements where the government itself is not a beneficiary, and the assets are dedicated to providing benefits to recipients in accordance with the benefit terms and are legally protected from the creditors of the government.

Custodial Funds (TC) - used to account for any remaining fiduciary activities that are not required to be reported in a private-purpose trust fund.

Supplemental Schedules

Non-Current Governmental Assets (K) – used to account for capital assets of a school district not accounted for through fiduciary funds. Amounts are reported in the ST-3 Report in the Supplemental Schedule SS-4.

Non-Current Governmental Liabilities (W) – used to account for the unmatured general long-term debt and liabilities of a school district which are not recorded as a liability in another fund. Amounts are reported in the ST-3 Report in the Supplemental Schedule SS-2.

Chapter 5 – Classification and Coding Structure

School districts in New York State are required to use a standard system for classifying and coding accounting transactions.

Classification

A classification of accounts is a systematic arrangement of accounts based upon a definite scheme. The purpose of classifying accounts is to provide a standard format for recording and reporting financial transactions which allows comparisons to be made with other school districts or other financial periods. The classification system serves many purposes: a basis for budgeting, accounting and reporting; administrative control; accountability to the OSC, SED and the general public; cost accounting; and the compilation of financial statistical data on the state level.

Coding

Coding of accounts facilitates the classification of data on source documents and the posting of entries in the accounting records. It enables identification of transactions quickly and provides consistency in reporting. The coding system used in New York State is an alphanumeric system - a letter or combination of letters followed by a series of digits.

The alpha portion of each code, consisting of one or two letters, identifies the fund. The following funds are provided for school districts in New York State:

Fund	Alpha Code
Governmental Funds:	
General	A
Special Revenue	
School Food Service Programs	C
Miscellaneous Revenue	CM
Special Aid	F
Public Library	L
Capital Projects	H
Permanent	PN
Debt Service	V
Fiduciary Funds:	
Custodial	TC
Private-Purpose Trust	TE

The numeric portion of each code, which immediately follows the alpha portion, identifies general ledger, revenue and expenditure/expense accounts. The same account code number, where applicable, is used in all funds.

General ledger codes have three digits and are arranged in balance sheet order: assets, followed by liabilities and fund equity.

100 – 499	Assets
600 – 799	Liabilities
800 – 999	Fund Equity

For example, 200 identifies the asset CASH in each fund. A200 identifies the asset CASH in the general fund.

Revenue codes have four digits and are arranged by source (where did the revenue come from):

1000 – 2999	Local Sources
3000 – 3999	State Sources
4000 – 4999	Federal Sources
5000 – 5999	Interfund Transfers and Proceeds of Obligations

Each category is further subdivided to better identify the revenue source. For example 2401 identifies INTEREST AND EARNINGS in each fund.

GAAP requires revenues to be classified by fund and by source. Thus, general fund INTEREST AND EARNINGS would be classified A2401.

Expenditure codes have a minimum of 5 digits and are arranged by functional unit and object of expenditure. The term function refers to the primary classification and description as to purpose (what was the purpose of the expenditure). The first four digits identify the function:

1000 – 1999	General Support
2000 – 2999	Instruction
5000 – 5999	Transportation
6000 – 8999	Community Service
9000 – 9099	Employee Benefits
9700 – 9799	Debt Service
9900 – 9999	Interfund Transfers

Each function is further subdivided to better classify the expenditure. For example, expenditure code 1325 in the General Support function identifies the Treasurer’s Office within the financial office of the school district.

Expenditures should be further classified by character, that is, on the basis of the fiscal period they are presumed to benefit. The major character classifications are: current, capital outlay and debt service. Character classifications may be accomplished by grouping the object classifications, discussed below, which are subdivisions of the character classification.

The object of the expenditure (the fifth digit in the code) is a secondary classification and identifies the item purchased or service obtained in order to carry out a function. The object is identified by the fifth and final digit:

.1	Personal Services
.2	Equipment and Capital Outlay
.4	Contractual and Other
.6	Debt Service Principal
.7	Debt Service Interest
.8	Employee Benefits
.9	Interfund Transfer

Code 1325 from above can then be further classified as 1325.4 indicating Contractual Services within the Treasurer’s Office.

GAAP requires expenditures to be classified by fund, function, character and object. Thus, a general fund expenditure for Contractual Services within the Treasurer’s Office is coded A1325.4.

The coding of expenditures may be expanded to include more detail such as department, location and/ or activity accounting. This can be accomplished at the school district level by further expanding the object of expenditure code by adding additional digits. Coding available for use by school districts have specific expanded objects of expenditure depending on the fund, as follows:

General Fund	
Basic Objects of Expenditure	
.10	Teacher Salaries, Pre-Kindergarten
.11	Teacher Salaries, ½ Day Kindergarten
.12	Teacher Salaries, K-6
.13	Teacher Salaries, 7-12
.14	Substitute Teacher Salaries
.15	Instructional Salaries
.16	Noninstructional Salaries
.45	Materials and Supplies

Special Objects of Expenditure	
2110.200	Regular School - Furniture, Equipment, Textbooks
1621.200	Maintenance of Plant
9901.96	Transfer to Debt Service Fund

Employee benefits, including such items as the school district's share of social security, retirement and various types of insurance, may be recorded in two ways. The first method would be to use the Employee Benefits Codes (9000-9099) with the .8 object of expenditure. The alternative method would be to charge the employee benefits to the various functional units using the .8 object of expenditure.

Control account codes are used to record the aggregate of debit and credit postings to a number of related accounts called subsidiary accounts. Control account codes have three digits. *Code 522 Expenditures* is used to record claims, vouchers and payrolls paid or accrued, including those of special reserves. *Code 980 Revenues* is used to record revenues, including those of special reserves.

Chapter 6 – Budgeting

GASB has given authoritative guidance on the budget and budgetary accounting in Section 1700 of its Codification of Governmental Accounting and Financial Reporting Standards. The sources of this guidance are the National Council on Governmental Accounting (NCGA) Statement 1 and Interpretation 10 and GASB Statement 34.

NCGA Interpretation 10 (State and Local Government Budgetary Reporting) defines the appropriated budget as the expenditure authority created by the appropriation bills or ordinances that are signed into law and related estimated revenues, including all reserves, transfers, allocations, supplemental appropriations, and other legally authorized legislative and executive changes.

It sets forth the following statements of principle on budgeting and budgetary control:

1. An annual budget(s) should be adopted by every governmental unit.
2. The accounting system should provide the basis for appropriate budgetary control.
3. A common terminology and classification should be used consistently throughout the budget, the accounts and the financial reports of each fund or activity.

The budget is an essential ingredient in the financial planning, control and evaluation process of any government. Every governmental unit in New York State is either required to, or should, prepare an annual operating budget.

Simply stated, the budget is an estimated financial plan of a government which represents the spending authority for the various purposes of the government and the means of financing those proposed expenditures.

Legal Level of Control

School district budget form SBM-1 represents the minimum level of legal budgetary compliance to be entered into the formal accounting system of a district.

Budgetary Integration

Formal budgetary accounting is a management control technique used to assist in controlling expenditures and tracking revenues. Budgetary accounting techniques are important because the annual budget is a legal compliance standard against which the operations of government are evaluated.

Because statutory laws of the State of New York require staying within appropriated budgets, the accounting structure is designed to ensure and demonstrate compliance with the budget. To achieve this goal, appropriated budgets are integrated into the accounting system. "Integrating the budget" means the accounting system is specifically designed to provide ongoing and timely information on unrealized budgetary revenues, as well as remaining uncommitted balances of appropriations.

After their managerial control purpose has been served, during the year end closing process, the general ledger budgetary accounts are reversed. Therefore, the budgetary accounting process has no effect on the actual results of operations.

Accounting for the Budget

The range and method of budgetary practices are outside the scope of financial reporting standards. However, budgetary compliance is a dominant consideration in managing governments. The basis on which the budget is prepared should be consistent with the measurement focus of the particular fund.

The system prescribed by OSC provides for the integration of the budget into the accounting records to provide for the control of authorized expenditures.

A journal entry will be made for the general ledger accounts only. The debits and credits must equal and remain within the self-balancing group of budgetary accounts. Those accounts are as follows:

510	Estimated Revenues
511	Appropriated Reserves
530	Obligations Authorized
599	Appropriated Fund Balance
960	Appropriations
962	Other Budgetary Purposes

The subsidiary revenue and expenditure accounts support the totals in the general ledger. The budget will be posted to the subsidiary accounts directly from the actual budget. The following illustrates this:

		Debit	Credit
7/1/xx	510 Estimated Revenues	xxxx	
	599 Appropriated Fund Balance	xxxx	
	960 Appropriations		xxxx
To record the adopted budget			

Throughout the year the general ledger control account “Appropriations” and the subsidiary appropriation accounts are used to control expenditures, keeping them within the authorized spending authority of the budget. The general ledger control account “Estimated Revenues” is used to record and summarize aggregated estimated revenues to ensure that revenues to support the appropriations are received, or on track to be received. Analysis of these accounts on a continuing basis will enable the budget officer to determine when the budget will have to be modified because original appropriations are insufficient or estimated revenues will not materialize.

Encumbrances

Encumbrances are informally defined as “an appropriation that’s spoken for.” They are commitments related to unperformed executory contracts for goods or services. The encumbrance account does not represent a GAAP expenditure, only a commitment to expend resources. Likewise, the account “Reserve for Encumbrances” is not synonymous with a liability account since the liability is recognized only when the goods are received or the services are performed.

The use of encumbrance accounting as a continuous and integral part of the accounting system enhances budgetary control. In a formal encumbrance system, each appropriation account should show the amount appropriated, the amount encumbered, the amount expended and the unencumbered balance. The principal purpose of this requirement is to guard against the creation of liabilities in excess of the appropriations approved by the governing board. To record encumbrances, the account code to use is 521 Encumbrances.

Before a purchase order or similar document is released to a supplier or contractor, it should be approved by the purchasing agent indicating the availability of appropriations. A copy should be filed with the purchasing agent and also with the unit initiating the order. If an appropriation balance is available, the chief fiscal officer will enter the encumbrance against the proper appropriation account. In those instances where a proposed commitment exceeds the available balance, the encumbrance should not be entered and the purchase order should be returned to the originating unit until such time as appropriate action is taken to amend the budget.

At the end of the fiscal year, the account 521 Encumbrances is closed to account 912 Unrestricted Fund Balance, and then allocated among the appropriate fund balance categories of restricted, committed or assigned for financial reporting purposes (districts may use the appropriate reporting codes directly for budgeting, accounting and reporting purposes). This serves to constrain fund

balance for the potential liability of goods and services ordered. On the first day of the next fiscal year, the entry closing the encumbrance account (and subsequent allocation among fund balance) is reversed and the budget for the subsequent year is increased in a like amount to provide for the potential expenditures authorized in the previous year.

Budget Transfers and Supplemental Appropriations

Transfers – A school district is bound by limitation on budgetary transfers, whether operating under a contingent budget or passed budget.

1. Under any budget, transfers can only be made between contingent codes or from non-contingent to contingent codes. Transfers can never be made from contingent areas to non-contingent areas of budgets nor between non-contingent areas of the budget. Non-contingent expenditure codes cannot be increased absent voter authorization (which includes new equipment and subsidization of the school food service operations).
2. If operating under a contingent budget, a district is also bound by budget caps. SED maintains information on contingency budget caps at their website at <http://www.p12.nysed.gov/mgtserv/budgeting/>. When operating under a contingent budget, a school district must be able to maintain an internal budgetary control system that allows for the sustained monitoring of appropriations and spending.

Supplemental Appropriations – A school district is limited in its ability to adjust its total spending subsequent to authorization.

1. No board may incur a liability in excess of the amount appropriated by a district meeting unless such board is specially authorized by law to incur such liability.
2. Generally, a school district cannot increase appropriations solely on the basis of the receipt of additional revenue. However, grants in aid received from the State or federal government, gifts which are required to be spent for particular objects or purposes and insurance proceeds received for the loss, theft, damage or destruction of real or personal property, when proposed to be used or applied to repair or replace such property, may be appropriated by resolution of the board at any time for such objects or purposes.

Budgetary Reporting

Budget Status Report – The treasurer is required to render a report to the board of education at least quarterly (monthly in the event that a budget transfer has been made since the last report), for each fund including, at a minimum, the revenue and appropriation accounts required in the Annual School Budget form. This report should be presented to the board of education on a monthly basis (according to Sections 2117(1) and 2122(6) of the Education Law and Section 170.2(p) of the Regulations of the Commissioner of Education), and include, at a minimum, the status of these accounts in at least the following detail:

Revenue Accounts

Estimated revenues

Amounts received to date of report

Revenues estimated to be received during balance of fiscal year

Overages and deficiencies

Appropriation Accounts

Original appropriations

Transfers and adjustments

Revised appropriations

Expenditures to date

Outstanding encumbrances

Unencumbered balances

Chapter 7 – Financial Reporting

Governmental accounting is concerned with the collection and analysis of a government's finances. This information has very little value if it cannot be communicated in a timely and effective manner. Financial reporting serves as the link between a school district's financial information and the school district's numerous, varied users they are designed to serve. Some of these users include school boards and oversight bodies, investors, creditors, taxpayers, SED and OSC.

Internal Reporting

Internal reporting typically is designed to accomplish two goals:

- To allow management to monitor compliance with legal and contractual provisions applicable to the management of public funds.
- To provide management with information on current performance that it needs to make future financial plans.

Because internal reports are designed expressly to serve the needs of management, management is free to select whatever format or content it believes most relevant. Interim reports usually are prepared on the budgetary basis and often do not include statements reporting general capital assets or general long-term debt. It is highly unusual for internal reports to be prepared in accordance with GAAP.

External Reporting

Annual Financial Report – ST-3

GML Section 30 requires every school district to annually make a report of its financial condition to the State Comptroller. School districts meet this requirement with the filing of their annual financial report (ST-3) with SED and OSC via the State Aid Management System (SAMS). The requirements for financial reporting prescribed in this manual are the basis for the ST-3.

The ST-3 includes fund financial statements (modified accrual basis of accounting), which are reported substantially in compliance with GAAP, and supplemental schedules (such as a balance sheet and statement of revenues, expenditures and changes in fund balance), which are designed to meet specific needs of SED and OSC. Updates to the ST-3 are communicated by OSC to SED and SED updates the ST-3 annually. ST-3 information can be found on SED's website at: <https://stateaid.nysed.gov/st3/>.

Audited Financial Statements

Section 2116-a of the Education Law and Section 170.2(r) of the Regulations of the Commissioner of Education require each school district employing eight or more teachers to obtain an annual audit of its records by an independent Certified Public Accountant or an independent Public Accountant. All audits should be conducted in accordance with generally accepted auditing standards (GAAS)

issued by the AICPA, and Government Auditing Standards (GAGAS), issued by the Comptroller General of the United States. A copy of the independently prepared audit report, along with any written response to the report, must be filed with SED and OSC. The audited financial statements will include management's discussion and analysis (MD&A), basic financial statements, (which includes government-wide financial statements, fund financial statements, and notes to the financial statements), and other required supplementary information.

For additional information on audits of financial statements of school districts, please see the SED's Audit Reference Manual at <http://www.p12.nysed.gov/mgtserv/accounting/> .

Federal Single Audits

The federal Single Audit Act as amended requires school districts who expend \$750,000 or more in a year in federal awards to have a Single Audit conducted in accordance with OMB Circular A-133. The audit report issued in conjunction with Circular A-133 generally must be submitted to the federal government, SED and OSC within the earlier of 30 days after receipt of the report, or nine months after the end of the audit period. Corrective action plans for the major program findings for federal programs must be submitted with the audit report and corrective action plans for the financial statement findings must be submitted within 90 days of receipt of the audit report.

Chapter 8 – Sample Journal Entries

This chapter presents sample journal entries for school districts. Some entries, such as the opening and closing entries, may happen behind the scenes in your financial software program and would not have to be entered by the district. These samples do not represent all possible journal entries. If you are unable to find the necessary sample journal entry, contact the regional office that serves your local government for assistance.

GENERAL FUND

OPENING ENTRY

(All districts except city school districts)

1a

To record the opening entry of the General Fund as shown by records at the close of the preceding fiscal year:

		Debit	Credit
A200	Cash	\$103,600	
A220	Cash from Obligations	\$3,000	
A230	Cash, Special Reserves	\$12,000	
A231	Cash in Time Deposits, Special Reserves	\$38,000	
A380	Accounts Receivable	\$400	
	A389 Allowance for Receivables		\$100
A391	Due from Other Funds	\$12,000	
A440	Due from Other Governments	\$1,400	
A450	Investment in Securities	\$10,000	
A452	Investment in Securities, Special Reserves	\$40,000	
	A600 Accounts Payable		\$500
	A601 Accrued Liabilities		\$500
	A622 Budget Notes Payable		\$7,000
	A632 Due to State Teachers' Retirement System		\$120,000
	A690 Overpayments		\$100
	A691 Deferred Inflow of Resources		\$100
	A867 Reserve for Employee Benefits and Accrued Liabilities		\$50,000
	A912 Unrestricted Fund Balance		\$42,100

NOTE: A912 Unrestricted Fund Balance is used for budgeting and accounting only, not for reporting purposes. It will be allocated to A913 Committed, A915 Assigned or A917 Unassigned Fund Balances for reporting purposes, as appropriate. Districts may use A913, A915 or A917 directly for budgeting and accounting purposes instead of A912.

(City school districts only)

	A691 Deferred Inflow of Resources		\$100
	A694 Deferred Taxes		\$15,000
	A867 Reserve for Employee Benefits and Accrued Liabilities		\$50,000
	A912 Unrestricted Fund Balance		\$42,100

NOTE: A912 Unrestricted Fund Balance is used for budgeting and accounting only, not for reporting purposes. It will be allocated to A913 Committed, A915 Assigned or A917 Unassigned Fund Balances for reporting purposes, as appropriate. Districts may use A913, A915 or A917 directly for budgeting and accounting purposes instead of A912.

BUDGET ENTRY AND SUBSEQUENT MODIFICATIONS

(Journal entries 2a, 2b and 2c have been separated into multiple entries for illustration purposes, they would normally be one combined entry.)

2a

To record the annual budget for the General Fund as adopted by the board of education and approved by the district electorate:

		Sub Account	Debit	Credit
A510	Estimated Revenues		\$1,490,000	
	A1001	Real Property Taxes	\$689,000	
	A3101	State Aid - Basic Formula	\$701,000	
	A - - - -	Various Revenues (Details in Subsidiary Ledger)	\$100,000	
A599	Appropriated Fund Balance		\$14,000	
	A960	Various Appropriations (Details in Subsidiary Ledger)	\$1,500,000	\$1,500,000
	A962	Other Budgetary Purposes Budget Note	\$4,000	\$4,000

2b

To budget for an addition to a reserve fund, in this case the Reserve for Employee Benefit Accrued Liability (EBAL):

		Sub Account	Debit	Credit
A510	Estimated Revenues		\$50,000	
	A1001	Real Property Taxes - Reserve for EBAL	\$50,000	
	A962	Other Budgetary Purposes Reserve for EBAL	\$50,000	\$50,000

2c

To budget for appropriation of funds from a reserve fund, in this case the Reserve for Employee Benefit Accrued Liability (EBAL):

		Sub Account	Debit	Credit
A511	Appropriated Reserves - Reserve for EBAL		\$50,000	
	A960 Appropriations			\$50,000
	A9089.8 Other Employee Benefits	\$50,000		

NOTE: The appropriation could be charged to A9089.8 or charged directly to the appropriate functional areas using the .1 or .8 object of expenditure.

3a

To record the appropriation of unanticipated revenues from grants in aid, gifts or insurance proceeds to meet additional appropriations:

		Sub Account	Debit	Credit
A510	Estimated Revenues		\$122,000	
	A2680 Insurance Recoveries	\$20,000		
	A2705 Gifts and Donations	\$2,000		
	A3262 Computer Software Aid	\$100,000		
	A960 Appropriations			\$122,000
	A - - - - Various Appropriations	\$122,000		

3b

To record the appropriation of fund balance to increase existing or to meet additional appropriations:

		Sub Account	Debit	Credit
A599	Appropriated Fund Balance		\$10,000	
	A960 Appropriations			\$10,000
	A - - - - Various Appropriations	\$10,000		

NOTE: See Education Law §1718 for a more complete discussion of the situations when appropriations may be increased.

4

To record a reduction of appropriations and estimated revenues whenever the board of education determines that the revenue will not equal the budget estimates:

		Sub Account	Debit	Credit
A960	Appropriations		\$5,000	
		A1620.4 Operation of Plant	\$5,000	
	A510	Estimated Revenues		\$5,000
		A1310 Day School Tuition from Individuals	\$5,000	

5

To record a transfer between appropriations when the board of education determines the unencumbered balance of one appropriation is unneeded:

		Sub Account	Debit	Credit
A960	Appropriations		\$3,000	
		A1621.4 Maintenance of Plant	\$3,000	
	A960	Appropriations		\$3,000
		A2110.4 Teaching - Regular School	\$3,000	

CURRENT AND OVERDUE REAL PROPERTY TAXES

(All districts except city school districts)

6a

To record the real property taxes levied for the General Fund budget and other levies:

		Sub Account	Debit	Credit
A250	Taxes Receivable, Current		\$960,000	
	A630	Due to Other Funds		\$20,000
	A631	Due to Other Governments		\$201,000
	A980	Revenues		\$739,000
	A1001	Real Property Taxes	\$600,000	
	A1001	Real Property Taxes - Reserve for EBAL	\$50,000	
	A1085	School Tax Relief Reimbursement	\$89,000	

NOTE: Real property taxes raised for the reserve should be segregated to be transferred into the reserve when funds are received.

(City school districts only)

6b

To record the real property taxes levied for the General Fund budget and other levies:

		Sub Account	Debit	Credit
A250	Taxes Receivable, Current		\$976,000	
	A631	Due to Other Governments		\$221,000
	A342	Allowance for Uncollectible Taxes		\$1,000
	A694	Deferred Taxes		\$15,000
	A980	Revenues		\$739,000
	A1001	Real Property Taxes	\$600,000	
	A1001	Real Property Taxes - Reserve for EBAL	\$50,000	
	A1085	School Tax Relief Reimbursement	\$89,000	

NOTE: Real property taxes raised for the reserve should be segregated to be transferred into the reserve when funds are received.

7

To record collection of taxes:

		Sub Account	Debit	Credit
A200	Cash		\$952,000	
	A250	Taxes Receivable, Current		\$951,000
	A980	Revenues		\$1,000
		A1090 Interest and Penalties on Real Property Taxes	\$1,000	

(All districts except city school districts)

8a

To record cancellation or reduction of erroneous taxes pursuant to court order, county treasurer rejection, or action of the board of education prior to the return of taxes by the collector in the current fiscal year:

		Sub Account	Debit	Credit
A980	Revenues		\$1,000	
		A1001 Real Property Taxes	\$1,000	
	A250	Taxes Receivable, Current		\$1,000

(City school districts only)

8b

Where a city school district has established an allowance for uncollectible taxes the entry will be:

			Debit	Credit
A342	Allowance for Uncollectible Taxes		\$1,000	
	A250	Taxes Receivable, Current		\$1,000

To record transfer of current taxes to overdue status upon return to the city or county enforcement officer:

		Sub Account	Debit	Credit
A260	Taxes Receivable, Overdue		\$14,280	
	20XX Levy	\$14,280		
A250	Taxes Receivable, Current			\$14,000
A980	Revenues			\$280
	A1090 Interest and Penalties on Real Property Taxes	\$280		

(All districts except city school districts)

To record payment by the county treasurer of taxes returned to the county for collection:

		Sub Account	Debit	Credit
A200	Cash		\$23,420	
A260	Taxes Receivable, Overdue			\$23,000
A980	Revenues			\$420
	A1090 Interest and Penalties on Real Property Taxes	\$420		

(City school districts only)

11

To record receipt of taxes from enforcement officer upon collection or enforcement by the city or county (including interest added and collected by the enforcement officer):

			Sub Account	Debit	Credit
A200	Cash			\$17,150	
	A260	Taxes Receivable, Overdue			\$16,000
		20XX Levy	\$4,000		
		20XX Levy	\$12,000		
	A980	Revenues			\$1,150
		A1090 Interest and Penalties on Real Property Taxes	\$1,150		

(City school districts only)

12

To record refund of current taxes:

			Sub Account	Debit	Credit
A980	Revenues			\$500	
		A1001 Real Property Taxes	\$490		
		A1090 Interest and Penalties on Real Property Taxes	\$10		
	A200	Cash			\$500

NOTE: Refund may be charged to A694 Deferred Taxes or A342 Allowance for Uncollectible Taxes. At the end of the year if these accounts are required to be adjusted (upward or downward) the offsetting entry would be "A980 Revenues - 1001 Real Property Taxes."

(City school districts only)

13

To record cancellation of overdue taxes:

		Sub Account	Debit	Credit
A342	Allowance for Uncollectible Taxes		\$100	
	A260	Taxes Receivable, Overdue		\$100
		20XX Levy	\$50	
		20XX Levy	\$50	

NOTE: Cancellation may be charged to A694 Deferred Taxes or A980 - 1001 if there are insufficient balances in A342. See prior journal entry for note on adjustment.

DEFERRED TAXES AND ALLOWANCES FOR UNCOLLECTIBLE TAXES

(City school districts only)

14

To record a transfer from Deferred Taxes to A342 Allowance for Uncollectible Taxes for the additional amount of taxes estimated to be uncollectible:

		Debit	Credit
A694	Deferred Taxes	\$1,000	
	A342 Allowance for Uncollectible Taxes		\$1,000

NOTE: The entry for the current year's provision for uncollected taxes is shown in entry 6. If provision has not been made for an allowance or deferred taxes the charge would be to A980 Revenues -1001 Real Property Taxes.

(City school districts only)

15

To record the amount of deferred taxes which becomes "available" as a revenue:

		Sub Account	Debit	Credit
A694	Deferred Taxes		\$17,770	
	A980 Revenues			\$17,770
	A1001 Real Property Taxes	\$17,770		

DEFERRED INFLOW OF RESOURCES – PLANNED BALANCE

(All districts except city school districts)

16

To record the portion of the opening entry of the General Fund as shown by records at the close of the preceding fiscal year for the amount raised in the prior year’s tax levy to meet expenditures of the first 120 days for the current year:

				Debit	Credit
A200	Cash			\$20,000	
	A692	Deferred Inflow of Resources - Planned Balance			\$20,000

NOTE: This entry for the use of the planned balance would be included with entry 1a.

(All districts except city school districts)

17

To record at the beginning of the fiscal year the reclassification of revenue for the amount raised in the prior year’s tax levy to meet expenditures of the first 120 days for the current year:

				Sub Account	Debit	Credit
A692	Deferred Inflow of Resources - Planned Balance				\$20,000	
	A980	Revenues				\$20,000
		A1040	Appropriation of Planned Balance	\$20,000		

(All districts except city school districts)

18

To record the portion of the entry of the real property taxes levied in the General Fund for the amount raised in the current year's tax levy to meet expenditures of the first 120 days for the subsequent year:

		Debit	Credit
A250	Taxes Receivable, Current	\$25,000	
	A692 Deferred Inflow of Resources - Planned Balance		\$25,000

NOTE: This entry for the raising of the planned balance would be included with entry 6a.

REVENUES OTHER THAN REAL PROPERTY TAXES

19

To record receipt of cash revenues:

		Sub Account	Debit	Credit
A200	Cash		\$90,000	
	A980 Revenues			\$90,000
	A - - - - Various Revenues	\$90,000		

20

To record the accrual of federal aid:

		Sub Account	Debit	Credit
A410	Due from State and Federal		\$150,000	
	A980 Revenues			\$150,000
	A4289 Federal Aid - Other	\$150,000		

21

To record the disallowance of federal aid to be received as a result of a change in the estimate on which the aid was calculated:

		Sub Account	Debit	Credit
A980	Revenues		\$25,000	
	A4289 Federal Aid – Other	\$25,000		
	A410 Due from State and Federal			\$25,000

NOTE: Use A631 - Due to Other Government if aid was received and must be repaid.

To record the disallowance of federal aid to be received as a result of not meeting eligibility or criteria requirements for the aid:

		Sub Account	Debit	Credit
A522	Expenditures		\$25,000	
	A1989.4	Unclassified – Disallowed Aid	\$25,000	
	A410	Due from State and Federal		\$25,000

NOTE: Use A631 - Due to Other Government if aid was received and must be repaid.

NOTE: Other closing entries would be similar to the entries in the General Fund, see entries #81-86.

SPECIAL AID FUND

The entries below illustrate the transactions for a NCLB (No Child Left Behind) Title I Basic Grant financed by federal funds and assumes that the project extends over multiple fiscal years. The accounting treatment for projects financed by State funds or partly by federal funds or State funds and partly by local money will be the same. When applicable, the local share will be accounted for as a General Fund interfund transfer and recorded under revenue code F5031 Interfund Transfers. All revenues should be identified with a particular project. As is the case with capital projects, each individual grant should be accounted for separately.

NOTE: Many journal entries for Special Aid Fund transactions are similar to those shown in the General Fund. For transactions not illustrated here, refer to the General Fund Journal Entries.

97

To record Project Budget:

		Sub Account	Debit	Credit
F510	Estimated Revenues		\$500,000	
	F4126	Federal Aid - NCLB Title I Basic Grant	\$500,000

			Sub Account	Debit	Credit
F5980	Revenues			\$5,000	
		F4126	NCLB Title I Basic Grant	\$5,000	
	F410	Due from State and Federal			\$5,000

NOTE: F631 Due to Other Government if aid was received and results in repayment.

107

Closing entries would be similar to the entries in the General Fund, see entries #81-86. The following entry would occur in the next fiscal year to record the unused appropriations authorized in the previous fiscal year:

			Debit	Credit
F510	Estimated Revenues		\$100,000	
	(Original 2,000,000 - Received 1,900,000)			
	F960	Appropriations		\$100,000
	(Original 2,000,000 - Spent 1,900,000)			

CAPITAL PROJECTS FUND

Note: Many journal entries for Capital Projects Fund transactions are similar to those shown in the General Fund. For transactions not illustrated here, refer to the General Fund Journal Entries.

(All districts except city school districts)

108				
To record the authorization and financing for a senior high school addition:				
		Sub Account	Debit	Credit
H510	Estimated Revenues		\$2,200,000	
	H5710	Serial Bonds	\$1,600,000	
	H5031	Interfund Transfers	\$600,000	
	H960	Appropriations		\$2,200,000
	H1620.293	General Construction	\$2,200,000	
NOTE: Interfund transfers (H5031) consist of a \$400,000 appropriation from the Capital Reserve in the General Fund (A878) and a \$200,000 contribution from the General Fund.				

109				
To record the General Fund transfer of \$600,000 and a cash advance of \$500,000 prior to the issuance of obligations:				
		Sub Account	Debit	Credit
H200	Cash		\$1,100,000	
	H630	Due to Other Funds (General Fund)		\$500,000
	H980	Revenues		\$600,000
	H5031	Interfund Transfers	\$600,000	

110

To reclassify capital reserve moneys as restricted cash assets in the Capital Projects Fund:

		Sub Account	Debit	Credit
H230	Cash, Special Reserves		\$400,000	
	H200	Cash		\$400,000

NOTE: Capital reserve moneys transferred from the General Fund (A878) are now classified as restricted fund balance in the Capital Projects Fund (H878).

111

To record a payment to contractors (bill is for \$650,000 with 10 percent retainage to be withheld). Restricted funds are used first:

		Sub Account	Debit	Credit
H522	Expenditures		\$585,000	
		H1620.293 General Construction	\$585,000	
	H200	Cash		\$185,000
	H230	Cash, Special Reserves		\$400,000
H521	Encumbrances		\$65,000	
	H821	Reserve for Encumbrances		\$65,000

NOTE: Encumbrances recorded in this entry only represent the retained amount. The district may, however, elect to encumber the entire amount of appropriations related to this project at the time the contracts were awarded. If this is done, 521 Encumbrances should be debited and 821 Reserve for Encumbrances should be credited for the entire amount of the appropriations related to the project.

112**To release 10 percent retainage to contractors after completion of construction work:**

		Sub Account	Debit	Credit
H522	Expenditures		\$65,000	
	H1620.293	General Construction	\$65,000	
	H200	Cash		\$65,000
H821	Reserve for Encumbrances		\$65,000	
	H521	Encumbrances		\$65,000

113**To record issuance of bond anticipation notes:**

		Sub Account	Debit	Credit
H200	Cash		\$1,600,000	
	H626	Bond Anticipation Notes Payable		\$1,600,000

NOTE: Subsidiary records identifying the purpose of the bond issue must be maintained.

114**To record repayment of the General Fund loan:**

		Debit	Credit
H630	Due to Other Funds	\$500,000	
	H200	Cash	\$500,000

115**To record investment of a portion of BAN proceeds in a certificate of deposit:**

		Debit	Credit
H201	Cash in Time Deposits	\$800,000	
	H200	Cash	\$800,000

116a

To record redemption of the certificate of deposit and interest earnings:

		Debit	Credit
H200	Cash	\$810,000	
	H201 Cash in Time Deposits		\$800,000
	H630 Due to Other Funds (Debt Service Fund)		\$10,000

(All districts except city school districts)

116b

At the same time a collateral entry will be made in the Debt Service Fund:

		Sub Account	Debit	Credit
V391	Due from Other Funds		\$10,000	
	V980 Revenues			\$10,000
	V2401 Interest and Earnings	\$10,000		

NOTE: This interest is restricted to payment of debt service on the BANs. It will be closed at year end to account V884 Reserve for Debt.

117a

To record issuance of serial bonds for the senior high school addition. Proceeds include a premium of \$3,000 and accrued interest of \$47,000:

		Sub Account	Debit	Credit
H200	Cash		\$1,650,000	
	H630 Due to Other Funds (Debt Service Fund)			\$50,000
	H980 Revenues			\$1,600,000
	H5710 Serial Bonds	\$1,600,000		

NOTE: In this example the premium is to be used for debt service, therefore, both the premium and the accrued interest are transferred to the Debt Service Fund.

(All districts except city school districts)

117b

At the same time, a collateral entry will be made in the Debt Service Fund to record the premium and accrued interest on bonds issued for the senior high addition:

		Sub Account	Debit	Credit
V391	Due from Other Funds		\$50,000	
	V651	Accrued Interest Payable		\$47,000
	V980	Revenues		\$3,000
		V2710	Premium on Obligations	
			\$3,000	

(All districts except city school districts)

118

To close the revenue accounts of the senior high school addition at the end of the fiscal year:

		Sub Account	Debit	Credit
H980	Revenues		\$2,200,000	
	H912	Unrestricted Fund Balance		\$2,200,000

NOTE: A912 Unrestricted Fund Balance is used for budgeting and accounting only, not for reporting purposes. It will be allocated to A913 Committed, A915 Assigned or A917 Unassigned Fund Balances for reporting purposes, as appropriate. Districts may use A913, A915 or A917 directly for budgeting and accounting purposes instead of A912.

(All districts except city school districts)

119

To close the expenditure accounts of the senior high school addition at the end of the fiscal year:

		Debit	Credit

	H522 Expenditures - Reserve Funds		\$400,000
	H522 Expenditures - Unrestricted Funds		\$250,000

NOTE: A912 Unrestricted Fund Balance is used for budgeting and accounting only, not for reporting purposes. It will be allocated to A913 Committed, A915 Assigned or A917 Unassigned Fund Balances for reporting purposes, as appropriate. Districts may use A913, A915 or A917 directly for budgeting and accounting purposes instead of A912.

(All districts except city school districts)

120

To transfer unneeded balance of the junior high school addition to the Debt Service Fund:

		Sub Account	Debit	Credit
H522	Expenditures		\$100,000	
		H9901.96 Transfers to Debt Service Fund	\$100,000	
	H200 Cash			\$100,000

NOTE: If the unexpended balance is required to be used for debt service, it will be transferred to the Debt Service Fund (V884); if not, it will be transferred to the General Fund (A884).

(All districts except city school districts)

121

To record principal payment made by the General Fund on a BAN issued to purchase a bus:

		Sub Account	Debit	Credit
